LOG BOOK OF ATANASI PATRICK KAFUKA

T23-03-13143 (BSC.SE 2)

EGA / DODOMA (2024/2025)

#	Week	Day	Date	Work Hours	Activity
1	4	Monday	2026/09/14	10	I learned about system administration and best practices, and was assigned to study cloud computing and data visualization. We were also introduced to mobile development, focusing on how USSD works and its use in mobile services.
2	4	Tuesday	2026/09/15	10	I learned the basics of cloud computing, Push and Pull SMS, RabbitMQ for message queuing, and the fundamentals of Ethereum and blockchain technology.
3	4	Wednesday	2026/09/16	10	Today, we learned mobile application development using Flutter and created a login form demo UI with input fields and a login button.
4	4	Thursday	2026/09/17	10	I learned about Business Analysis in System Development, its best practices, and practiced integrating the blockchain component with the central system
5	4	Friday	2026/09/18	10	I set up the development environment for the Central System Engine and installed the required tools and dependencies, including VS Code, Python, Django, PostgreSQL, Angular, and Tailwind CSS.
