LOG BOOK OF ATANASI PATRICK KAFUKA

T23-03-13143 (BSC.SE 2)

EGA / DODOMA (2024/2025)

#	Week	Day	Date	Work Hours	Activity
1	1	Monday	2026/08/24	8	We are given a project title, and we are required to conduct comprehensive research on the assigned topic. The research involves developing a clear understanding of the problem, investigating existing solutions and related technologies, reviewing relevant literature, identifying gaps or limitations in current approaches, and proposing possible improvements or innovative solutions.
2	1	Monday	2026/08/24	8	We are given a project title, and we are required to conduct comprehensive research on the assigned topic. The research involves developing a clear understanding of the problem, investigating existing solutions and related technologies, reviewing relevant literature, identifying gaps or limitations in current approaches, and proposing possible improvements or innovative solutions.
3	1	Wednesday	2026/08/26	8	We were provided with a complete project description, including the main objective and specific objectives. As part of the assignment, we were given a case study to research and analyze how credit scoring systems work, particularly focusing on the credit scoring system
4	1	Thursday	2026/08/27	8	Reviewed the eGA concept note template and identified the key sections required for the project, including the introduction, objectives, project rationale, scope, problem and opportunity statement, implementation approach, benefits, milestones and deliverables, success criteria, constraints, assumptions, funding, stakeholder analysis, risk management, sustainability, implementation timeline, and approval details.
5	1	Friday	2026/08/28	8	Today, we presented the project title, problem statement, proposed solution, and expected deliverables.
